TUESDAY, DECEMBER 5, 1882.

In the current short session of Congress the Republicans will have an opportunity to do something in the way of revenue reform, and under the pressure of a strong public sentiment they may be induced to seize the occasion; but it will not forestall the Democratic action of the next Congress. Nothing can be plainer than that the political revolution which the country has just experienced was intended to show that plunder and extravagance had to be stopped, and that it was to be done through the agency of the Democratic party. Whatever may be done in this direction by the present Congress will not detract from the credit which is already due to Democracy, for without the late Democratic triumph and the unmistakable expression of distrust in Republicanism, their excesses would have gone on increasing rather than diminishing. If any reforms are placed upon foot just now they will be the results of an extraordinary force applied to Republicans through the ballot boxes. They are in no condition to claim any credit for doing what the people have demanded shall be done, and it will be a place of brazen effrontery in any Republican to claim that his party has been the author of any measure looking to retrenchment, and an honest administration of the affairs of Government.

If anything is done to remodel the system of collecting the internal revenue and to curtail the immense patronage of the Government, it will doubtless be cheerfully done in view of the improbability that Republicans will ever have another opportunity to enjoy the power which it has given to them in the past. They ought to be perfectly willing to see the Democrats disarmed of all such means of perpetuating their rule, and it will doubtless be the aim of the present Congress to do the disarming, and not wait to see it done voluntarily by the Democrats, as they know it will be. If anything is done to shorten expenditures, it will have to be done quickly, for the time of the session is already appropriated for other important purposes, and there is little room for a full confession and death-bed repentance. The breath of the Republican party is becoming very short, and if there is to be any compounding with the devil it must be expeditiously done.

A general discussion of the fancy rifle shot business by the newspapers, it is to be hoped, will result in putting an end to such practices upon the stage. It only needed a disaster of this kind to cure the morbid taste of some people for such a spectacle. The absurd idea that there could be any absolute safety in shooting an apple from a woman's head, with a rifle that would send its missile through a two-inch plank, should never have been entertained by any man, and it is a grave question as to whether Frayne is not chargeable with the crime of manslaughter. For aught the world knows it may have been murder—though no person believes it was.

Page McCarty, correspondent of the Richmond State, has been pulling Riddleberger's beard and tweaking his nose in the press; but Riddleberger does not seem to mind it. He sets up for a fighting man, and as Page McCarty happens also to be upon that line, he doesn't hanker after a meeting. It reminds us of a noted event at the Astor House, New York, in which a nice discrimination was made in the matter of kicking. Riddleberger knows who to bully.

Poor Kiefer! If he has to become the scapegoat for his party it will go hard with him. It must be a great mortification to him to be called a "clumsy blunderer" by the Philadelphia Press—a paper that by its own blunders in the demolition of its own party in Pennsylvania.

The Denver Tribune says the late pronounced defeat of the Republican party enables it to get rid of all its corrupt leaders. It might also have added its corrupt followers.

A short way to settle the acrimonious debate between Grant and Logan would be for Fitz John Porter to give Logan a licking.

Cleveland and Patison are sons of preachers, but that signifies nothing, as Arthur is also the son of a preacher.

The Comptroller of the Treasury recommends the purchase of bonds, and their refunding at three per cent.

The New Yorkers had a ten hours snow on Thanksgiving day.

We do not credit the report that a mob organization in Boyd county has supplied itself with 200 breech-loading guns with which to attack the State militia if it is sent to Carter. Such a treasonable proceeding could never be sanctioned by the better class of citizens in that county, and it could not be done openly or secretly in any part of the State without being denounced. The Ashland mob has had ample time to cool off, and if there were any men of ordinary sense in it, they would know that two hundred armed men would give the State no more trouble than a fly on a bull's horn. Whatever number of men is necessary to protect the court at Grayson will be sent there. Twenty thousand men would volunteer to go there to-morrow in defense of the laws of Kentucky.

A gentleman who interviewed John D. White at Lexington last week says he will make quite a sensation in Washington when the Republicans discover that he intends to vote with the Democrats on all points of reform. White intimated to him that the excesses of the Republican party had driven him from it, and that as an honest man he could no longer lend it any assistance. If this be true it will be to the credit of Mr. White that he has been consistent for once, since in his late campaign he went in an unglorious way for the Republican leaders, and refused outright to accept the Republican nomination in his district. Nobody can assert White is not a smart fellow in fixing up his fences.

One principal object of having the transit of Venus closely and accurately observed from different points at the same hour is to enable astronomers to calculate the exact distance of that planet from both the earth and the sun.

It will be seen that it is important to observe the first contact, and note the time, as it will be furnished by telegraph from Washington. An arrangement to give the time to all private observers who live at points where the telegraph is in operation has already been announced, and those having good telescopes with solar glasses should take advantage of this opportunity to contribute something to science.

From their desperate situation, the Republicans are said to be looking to a reorganization of the old Whig party. Any expedient in this junction will be tried by them, but it will not serve the purpose. Under whatever name it goes, the Republican conspiracy will be a conspiracy still, and if it regains power, it will go on in the same rut, robbing the treasury and plundering the people. There is no danger that any old Whig will be flattered into a belief that an organization of Republicans under the name of Whigs would be an endorsement of his time-honored principles.

Senator Windom indignantly denies that he has grown rich since he entered public life. That's all very well, but how about all the other fellows? His offense at the suggestion will not be very well received by such men as Blaine, Robeson, and a long list of others who were poor as church mice until they became public servants, and had a chance to save their wages, live frugally, and become millionaires. Mr. Windom evidently thinks some odium attaches to a man who grows rich in Congress on a salary of \$5,000 per year, and so it does.

The Maysville Republican publishes a portrait and sketch of Hon. John G. Carlisle, which it would do well to paste upon the sanctum walls. We don't know anything that would have a more beneficial effect upon a Republican edit or than an occasional view of an honest man in public life.

Capt. Ralph Sheldon, Register of the Land Office, has settled his indebtedness to the State up to the first of January, 1882—having paid the Auditor \$1,078.25, the whole sum due to that date. No other payment will be due until January 1, 1883.

If Tennyson can stand the ridicule which London audiences are heaping upon his play, he is made of sterner stuff than most writers—especially poets. His desire to achieve fame as a dramatist came to him too late in life.

Mr. S. O. Nunn, of Marion county, declines to be a candidate for the Legislature, and closes a very sensible card by saying the Democratic nominee, let him be whom he may, will not find a warmer friend than himself.

The friends of Maj. Crumbaugh, U. S. Collector in the Owensboro district, are urging his appointment to the Secretaryship of the Navy in the event of a vacancy.

Jo Mulhattan will go to Washington this week to become the guest of Tom Ochiltree during the session. Tom will have to be sustained in all his statements, and it will be convenient to have Mulhattan always on hand.

John H. Jesse is largely petitioned to become a candidate for the Legislature in Woodford.

Gen Durbin Ward says he intends to be a candidate for Governor of Ohio next year.

Hon. Swift Darneal is called upon in the Woodford Sun to become a candidate for re-election to the Legislature.

Mr. W. T. Havens, editor of the Kentucky Sentinel, has been ill during the last two issues of his paper.

It is said that Gen. R. M. Gano has lately cleared \$150,000 by a sale of real estate in Texas.

In the Tenth District G. M. Adams received 12,590 votes; J. D. White received 14,240 votes.

JAMES BLACKBURN, Sec'y of State.
FAYETTE HEWITT, Auditor.

The Garfield Fair is pronounced a financial failure.

Gov. Foster thinks that Jay Hubbellism is what cooked the Republican goose in Ohio. Fix it up, gentlemen, any way you like. There stand the facts!

Dr. R. V. Pierce, Buffalo, N. Y.: *Dear Sir*—Your "Golden Medical Discovery" has cured my boy of a fever sore of two years' standing. Please accept our gratitude. Yours truly, HENRY WHITING, Boston, Mass.

Frank Frayne was promptly acquitted upon a warrant charging him with manslaughter. The body of Miss Von Behren was taken East Saturday, accompanied by the St. Louis troops.

A suggestion that Col. Hart will contest the election of Mr. Culbertson has been made in some of the State papers, but we have no idea that Col. Hart would entertain it a single moment. While he might be able to make a much better case than Sam McKee did in contesting the seat of John D. Young, he is not the man to do such a thing, and if he were, a Democratic Congress is not the body to favor such a scheme. Culbertson was elected by a large majority, and while he may have received a great many illegal votes, there is no room to doubt that he received a fair majority of legal votes. The real difficulty about this case is that the Democrats did not poll a full vote in any county of the district except Bath.

A Republican postmaster at La Salle, Indiana, refused to admit the La Salle Democrat to the mails on the ground that it obtained obscene matter, and now he is informed by the Postmaster General that he has not been constituted a judge and jury, and had no right to meddle with newspapers in that way. The question as to whether any matter is improper to be sent in the mails must be decided by the Attorney General, and not by any cross-roads postmaster that chooses to assume censorship.

Mr. Arthur succeeded admirably in guarding his message from the reporter of the Cincinnati Enquirer, and it did not appear yesterday.

Minister Hamilton is on his way home from Madrid to have a few months' recreation. His duties must be very arduous.

Hon. Thos. L. Jones and Hon. Zack Smith have been visiting the Purchase. They were in Fulton last week.

The pension appropriation amounts to more than half the ordinary expense of the Government.

Sarony, the photographer, will make a fortune from the sale of pictures of Mrs. Langtry.

The unkindest cut Blaine has received lately comes from the editor of the Reading News, who figures out that on the salary of the President, \$200,000 for four years, Blaine could come out worth \$40,000,000.

R. V. Pierce, M. D.: *Dear Sir*—My wife who had been ill for over two years, and had tried many other medicines, became sound and well by using your "Favorite Prescription." My niece was also cured by its use, after several physicians had failed to do her any good. Yours truly, THOMAS J. NETIVIN.

Col. and Mrs. J. Stoddard Johnston left for Abilene, Texas, yesterday afternoon. They will be absent about four weeks.

The examining trial of Eli Gardner, held for the killing of George Grayson, has been postponed until this morning.

Frankfort people will be gratified to observe how the worth of their former fellow citizen, Col. James A. Dawson, is appreciated in the far West, and how honors have been conferred upon him in a great and growing city.

What has become of the ancient and famous Smith family? Why not have a reproduction of Mother Goose or Ye Old Folks in some shape? The people are crying aloud for an exhibition of home talent.

A difficulty between Mr. C. E. Taylor, Manager of the W. U. Telegraph Co., and Mr. Frank Montgomery, in charge of the District Telephone Company, occurred in the telephone office at noon yesterday. Two shots were fired, Mr. Taylor receiving a bad wound in his left arm, near the elbow, and Mr. Montgomery receiving a slight flesh wound in the right arm. The particulars of the origin of the trouble are not given by either party. Mr. Taylor's wounds were dressed by Drs. Price and Duval. Mr. Montgomery appeared before Judge Sneed, and gave bond in the sum of \$500 to answer. Mr. Taylor was also held under bond.

At last accounts before going to press, the wound in Mr. Taylor's elbow was giving him great pain, and the surgeons were apprehensive that it would require amputation.

An interesting case, involving the possession and guardianship of a colored girl, was decided in Judge Thomson's court yesterday. It seems that the girl when an infant came into the possession of Capt. Jno. R. Gay—who is now ninety-nine years of age—who has taken care of her for thirteen years, she being now between the ages of thirteen and fourteen. Capt. Gay hearing that her father, whose name is Henry Smith, intended to take some steps to secure possession of her, instituted proceedings which required Smith to show cause why she should not be apprenticed to him. Smith replied showing his ability to take care of the child, and the cause was decided in his favor.

The gas gave out Saturday night about 10 o'clock, owing to the loss of steam caused by a break in the boiler used in the process. A new boiler of four times the capacity has been ordered. The first one put up was found inadequate to the increasing demand for gas, a number of new consumers having been added, and the boiler in use was strained too much to keep up the necessary supply. The gas is steadily improving. When the construction is completed, we are promised the best gas light in Kentucky. We are glad to note that the controlling interest in these works will be held in Frankfort, and the management will be with our own people. There is no disposition on the part of the purchasers to monopolize it; on the contrary, they are desirous that every citizen should hold some of the stock. Many have availed themselves of the opportunity, and there is now but a small amount in the market, a little over one-half having been bought here.

Very little interest seems to have been manifested in the city election. It passed off as though nothing were happening out of the ordinary run of events. The registered vote was very small, and there was nothing to invite a lively canvass. The indications are that Mr. Edmund H. Taylor will be re-elected mayor, and the affairs of the city will go on as heretofore. The questions of importance for the new Council to consider are a reduction of the extravagant expenditures upon the streets in the way of macadamizing, and a general reduction of the ordinary cost of running the city. It has also to consider the question of rebuilding Major Opera House in some shape better than the old one. As no private individual or company seems inclined to undertake the construction of such an establishment, we see no other way to provide the city with a public place of amusement than by devoting the insurance money, and whatever other sum is necessary, to that purpose. In agreeing that the work shall be done at the hands of the Council, the citizens ought to stipulate that it shall be done in first-class style, and finished before the opening of the winter.

Turkeys are selling at ten cents per pound, while beef and pork are held at twelve and a half per pound. With a big crop of celery, and cranberries at a reasonable figure, we ought to be able to worry through the winter without suffering a great deal.

The latest sensation in art circles is the appearance in New York of the Madonna del Candelabro, said to have been a work of Raphael's second period. It will be on exhibition in this country several months, and all our young artists will make pilgrimages to see it. The last number of Harper's Weekly contains an engraving of it.

The picture of Mr. Alexander's three children, which Mr. Wilson has been engaged upon for the last six months, is now nearly completed. The frame, which is exceedingly handsome, has been placed upon it, but still needs a few finishing touches in the opinion of the artist. As soon as completed it will be taken to Louisville and placed upon exhibition. It is one of the finest works ever produced in the State.

DEATH OF HON. ISAAC N. WEBB.
Notice of the death of Hon. Isaac N. Webb, of Newcastle, reached here yesterday. He was a former representative in the Legislature from Henry county, and had many friends in this city. His funeral takes place from his residence in New Castle this morning. He will be buried with the honors of Masonry.

TO OWNERS OF PIANOS—The itinerant tuner visits Frankfort periodically. Save after regrets and your money too, by leaving your order for tuning at Dr. Averill's for Jos. Ritter, who will be here again in a few weeks.

We call your attention to the advertisement of Simmons' Liver Regulator, which appears in the paper of to-day. This standard remedy, the only genuine of which is manufactured by J. H. Zeilin & Co., and of which they are the sole proprietors, does not deserve to be classed with the many "patent" nostrums so liberally advertised throughout the country. It is one of the very best preparations in use, and is recommended by the regular practitioners of medicine. It has a large sale in this city, and can be found in all our drug stores. A bottle or package should be found in every family, as its judicious use is almost sure to prevent a bilious attack if taken when the symptoms first show themselves.

OFF FOR FLORIDA.

[From the Paducah News.]

A postal card from our old friend, Maj. Al McGowan, dated Mayfield, Nov. 26th, says: "I leave with my family this morning for Florida." He does not say to what part of Florida he is going, but simply says: "I will write when I light." Wherever he may "light" may health, property, and happiness be with him and his family. No man of brighter bonnet and more integrity, no braver soldier nor truer friend, lives upon the earth. Intelligent, educated, industrious, and every inch a gentleman, Florida will win in him a most estimable citizen and in his family a valuable acquisition to her social circles. The Kentucky and ourselves have lost him a source of deep regret; that he will escape the harsh winter climate of Kentucky is a cause of thanksgiving.

Three grand prizes will be given to our patrons first Thursday in January. Philip Selbert, the jeweler.

COL. JAMES A. DAWSON.

[From the Denver Tribune.]
The new Republican city council has started out "howdily." It has elected only one official, and he is a Democrat. But, fortunately, he is a good man, a meritorious and popular citizen, and will make an excellent official. General James A. Dawson, the new City Attorney, was recently the Democratic candidate for District Attorney. He is a poor man and had no money to spend in the canvass, and yet he carried this Republican city against a popular Republican candidate, who was supported by both wings of the party. The outside counties of the district caused his defeat by a small majority. In electing him the council has implicitly obeyed the will of the people of Denver. They voted the other day to make him District Attorney. It is no more than fair to the aldermen to recognize the significance of that vote and do the next best thing by making him City Attorney. It is an unusual thing to do from a partisan standpoint, but it will meet the approval of the majority.

Mr. J. H. Bean, of Montgomery, has sold one hundred pounds of butter, the produce of one cow, since the first of June. Besides this, the same cow has furnished his family of four persons with all the milk and butter they required to eat. Now let Attorney General Hardin come to the front with his cow that gives two pounds of butter at a milking—"or words to that effect."

KENTUCKY ASSOCIATION.

[From the Lexington Gazette.]

The Officers and Board of Stewards of the Kentucky Association, at a meeting held on Monday, Nov. 27th, at the Phoenix Hotel, Lexington, Ky., decided to give two extra days next spring, the races to begin Thursday, May 10th, and end Friday, May 18th, making eight days. The character of the purses were not decided upon.

The Brooklyn Eagle, a paper published on the United States steamer Brooklyn, says:

The United States steamer Marion sailed from New York for home at 8 A. M. Saturday, Sept. 30. It would be impossible to depict the happiness of the Marion's people in the final departure. When she got under way her crew manned the rigging; some of them even got up on the rigging, and cheered lustily, while they threw their caps overboard in their delight to leave the clime of their homeward cry. The Marion leaves the station with the good will and best wishes of all who had the good fortune to meet with her people. It was generally understood that the Marion would only make a short cruise when she first arrived on this station, and every new delay only served to disappoint the more. On her way out she reached Rio at most unhealthy season, lost two or three officers by yellow fever, and was quarantined at Flores Island, after which she went to the Straits and Falkland Islands, and the next spring followed her cruise to Heard's Island in search of the lost ship Thimble. She returned thirty-three days later, and was hailed as a vessel from a desert island, where they had been seventeen months.

GUY BARRETT.

Woman's most Effective Charm undoubtedly a lovely complexion.

The most luscious of eyes, the skilful of hair, whether raven or golden, the praiseworthy of teeth, or most coral of lips gladden the eye in no such degree as clear, smooth and velvety complexion, for a woman with such a charm is rich in the beauty that all men adore.

Ladies deficient in the supreme attraction of their sex will find their need made good by the use of Gouard's Olympea Cream, in white or pink, for blonde or brunette. Price, one dollar, sent by express. A. H. Gouard, 102 Greenwich Street, New York.

Do not forget that when you purchase anything at my store you can have it engraved free of charge. Philip Selbert, the jeweler.

Impure Breath.
Among all the disagreeable consequences that follow the decay of the teeth, an impure breath must be the most mortifying and unpleasant to its possessor, and it is the most inexcusable and offensive in society; and yet the cause of it may easily be removed by cleansing your teeth daily with that perfectly popular dentifrice, FRAGRANT SOZODONT. It purifies and sweetens the breath, cools and refreshes the mouth, and gives a pearl-like appearance to the teeth. Gentlemen who indulge in smoking should cleanse their teeth with SOZODONT, as it removes all unpleasant odors of the weed. Ask your druggist for it.

BOARDING—Large, nicely furnished rooms, with first-class board, at the Weitzel Hotel building, opposite State House square.

All the dogs in Crittenden are dying of distemper.

Mrs. Morris has three comfortable rooms for rent, furnished or unfurnished.

THE BRIGHT OF FOLLY.
To wait until you are in bed with disease you may not get over for months, is the height of folly, when you might be easily cured during the early symptoms by Parker's Ginger Tonic. We have known sickly families made the healthiest by a timely use of this pure medicine.—Observer.

WHY SHOULD THEY?

No man or woman can do satisfactory work when the brain is dull, the nerves unsteady, the system relaxed, and they feel generally wretched. Why should anybody drag through their work in this condition, when a bottle of Parker's Ginger Tonic will, at moderate cost, give them the strength and will to perform their duties satisfactorily.

Its intrinsic excellence and peculiar adaptation to the toilet has secured it an instant preference over every competing article, a pre-eminence due to no puffery or extravagant addition of its merits.
